

Press Release

FlagShip Joins the Google Enterprise Professional Program

FlagShip today announced it has joined the Google Enterprise Professional program, which extends the power of Google search and helps customers get more value out of their Google

The Google Enterprise Professional program includes developers, consultants and independent software vendors that provide value-added services for Google enterprise products.

“The Google Enterprise Professional Program will help us provide Google search to our clients today, giving them the edge in their marketplace tomorrow,” said *Kim Flagstad*. “Google’s enterprise search products offer businesses the same quality search experience as people get with Google.com.”

FROM Google™

“Google is excited to have FlagShip Integration Services Inc. as a partner in the Google Enterprise Professional program. We’re looking forward to bringing the power of Google search to businesses in the Chicago area now FlagShip is onboard” said *Kevin Smith*, program manager for Google Enterprise Professional.
